About Polishcrafts

www.polishcrafts.in

We are proud to announce a significant milestone in our journey. After successfully representing and selling Italian coatings in the Indian market for over 25 years, we have gained a deep understanding of the evolving needs of our customers. In response to this, we are excited to introduce advanced wood-conserving technology from Italy, further enhancing our commitment to quality and sustainability.

Elegance in every grain

We are delighted to introduce ourselves as one of the largest application center for wood coatings in the region. Our state-of-the-art facility in Bangalore spans an impressive 25,000 square feet, making it the most extensive and fully-equipped wood coating application center in South Asia. Fully licensed by CEFLA, our center is equipped to deliver world-class solutions tailored to the unique demands of the South Asian market.

www.polishcrafts.in

This expansion underscores our dedication to innovation, excellence, and customer satisfaction, as we continue to lead the way in wood coating technology and applications. PU coating on wood working industry is like a jewel to the furniture & interiors. It adds glamour & durability to the furniture. With the most sophisticated Cefla Machines and 20 years expertise in wood coatings, we coat on substrate exactly on par with Italian finish. We are smart, fast and ready to provide innovative solutions tailored to your needs

To extend the best wood polish and coating services to make furniture and interiors look excellent and last longer. Our commitment is to bring out natural beauty in wood and to maintain it for next generation.

01 VISION

Our team is always working on making our products even better and finding new ways to help our customers. When you reach out to us, you'll get the kind of service that makes you feel valued and respected. We want to do more than just meet your needs - we want to wow you with how well our products work and how much we care about making you happy.

02 MISSION

You'll see more products from us that solve different furniture care problems. We're growing our family of products step by step, making sure each new addition lives up to the quality you expect from us. Your furniture care needs keep changing, and we're committed to changing with them.

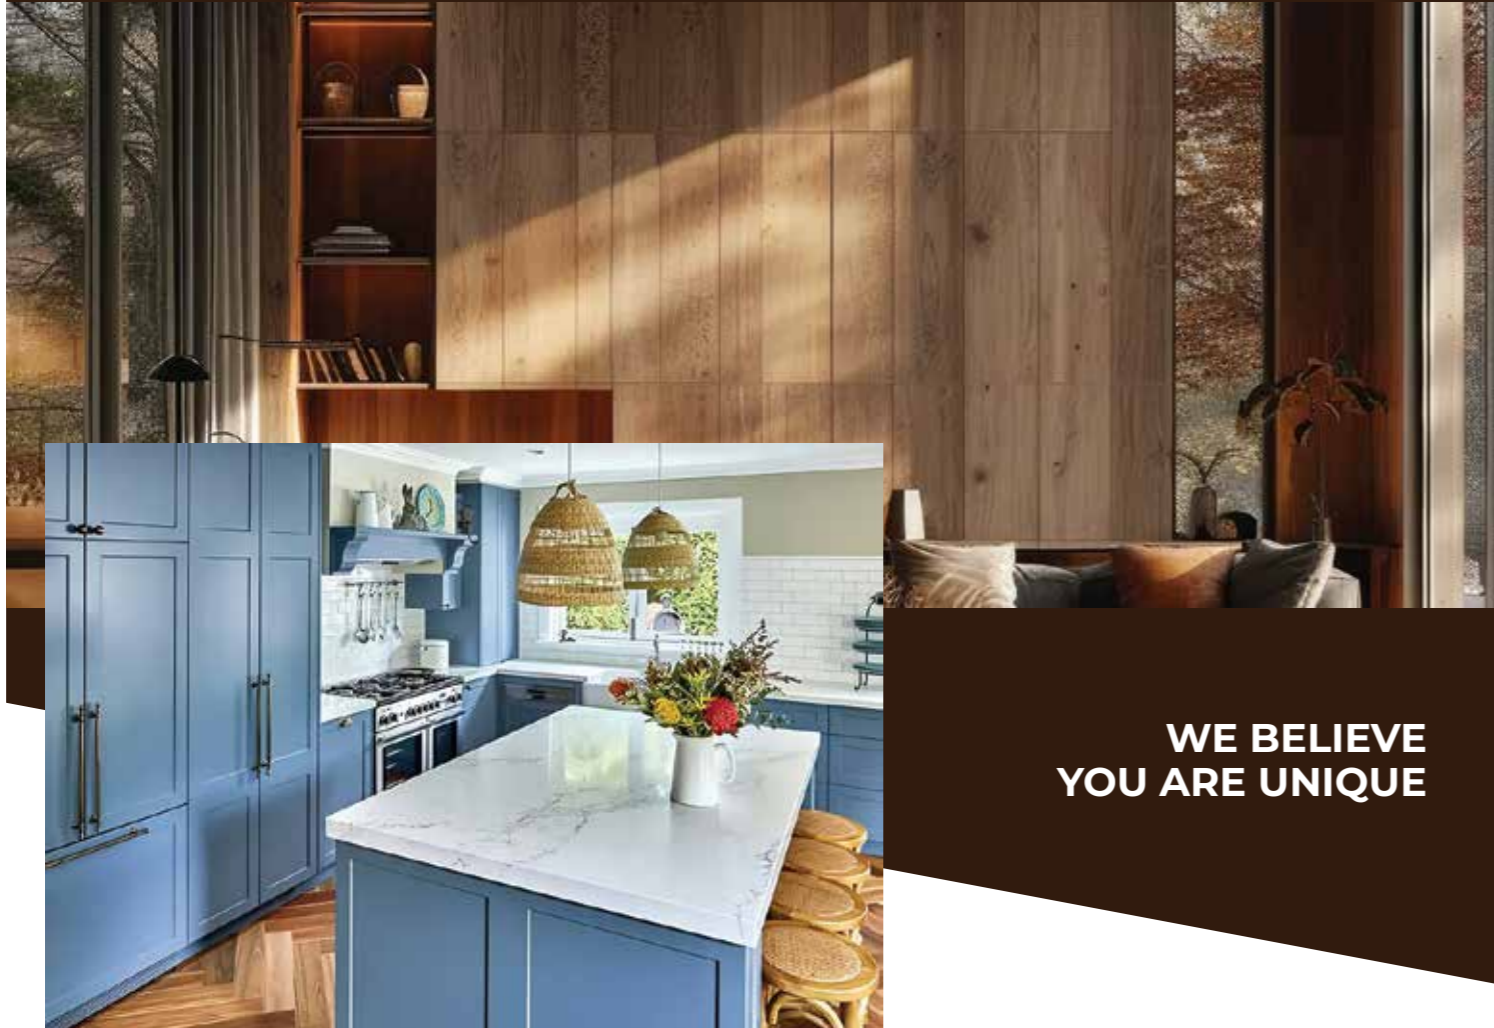

03 FUTURE PLANS

WHAT WE DO

Elegance in every grain

PIGMENTED PU COATINGS

**WE BELIEVE
YOU ARE UNIQUE**

Pigmented PU Coating is a specialized finishing Pigmented PU technique used in woodworking, furniture making, and veneer applications. It enhances the visual appeal of surfaces while offering strong protective properties. Unlike clear coatings, Pigmented PU coating provide a solid color finish, concealing the natural grain of wood or veneer while ensuring durability and resistance to environmental factors. This makes it a preferred choice for high-end furniture, cabinetry, and decorative wooden surfaces.

BENEFITS

UNIFORM AND CONSISTENT COLOR

- Covers wood grains, knots, and imperfections, giving a seamless and consistent finish.
- Available in matte, satin, and glossy finishes for a customized look.

ENHANCED DURABILITY

- Protects the surface from scratches, moisture, and everyday wear and tear.
- Increases the lifespan of furniture, making it ideal for high-traffic areas.

WATER AND STAIN RESISTANCE

- Provides a non-porous, sealed surface that resists water absorption.
- Prevents stains from food, oils, and household chemicals.

UV AND HEAT RESISTANCE

- Prevents color fading due to prolonged sun exposure
- Suitable for kitchen cabinets, wall panels, and outdoor furniture.

LOW MAINTENANCE & EASY CLEANING

- Does not require frequent re-polishing like traditional wood finishes.
- A damp cloth is sufficient for cleaning without damaging the surface.

CHEMICAL AND ABRASION RESISTANCE

- Resists damage from cleaning agents, making it ideal for restaurants, hotels, and commercial furniture.
- Withstands daily use without chipping or peeling.

WIDE RANGE OF COLOR CHOICES

- Offers endless color possibilities, from neutral shades to bold, vibrant hues.
- Ideal for modern and contemporary furniture designs.

ECO-FRIENDLY OPTIONS AVAILABLE

- Water-based Pigmented PU coatings are low in VOCs, non-toxic, and safe for homes and workplaces.

IDEAL APPLICATIONS

- Modern furniture and cabinetry
- Decorative wood panels and partitions
- Kitchen cabinets and bathroom vanities
- High-end retail and office interiors
- Children's furniture and play areas

PU CLEAR COATINGS

PU Clear Coating is a widely used finishing material in the woodworking and furniture industry. It enhances the durability, appearance, and longevity of veneer, solid wood, and furniture while protecting them from wear and environmental factors. This coating is especially beneficial for polished crafts, ensuring a smooth, glossy, or matte finish that adds aesthetic value.

BENEFITS

ENHANCED DURABILITY

- PU clear coating creates a hard, protective layer that makes wood and veneer resistant to scratches, impacts, and daily wear and tear.
- It extends the life of furniture and wooden crafts by preventing moisture damage.

WATER AND STAIN RESISTANCE

- Unlike regular polish, PU clear coating offers excellent resistance to water, oil, and stains.
- Ideal for kitchen furniture, dining tables, and bathroom vanities where exposure to moisture is high.

UV AND HEAT RESISTANCE

- PU clear coatings protect furniture from fading due to sunlight exposure.
- It also adds heat resistance, making it suitable for furniture in outdoor or semi-outdoor spaces.

AESTHETIC APPEAL

- Available in glossy, matte, and satin finishes, PU enhances the beauty of wood grains and textures.
- It offers a luxurious and rich look, elevating the quality of polished crafts.

LOW MAINTENANCE

- Easy to clean and maintain; requires only a damp cloth for routine cleaning.
- Does not require frequent re-polishing like traditional wood polishes.

CHEMICAL AND ABRASION RESISTANCE

- Protects wooden surfaces from damage caused by household chemicals, cleaning agents, and accidental spills.
- Ideal for high-traffic furniture like tables, cabinets, and flooring.

ECO-FRIENDLY OPTIONS AVAILABLE

- Water-based PU clear coatings are non-toxic, low in volatile organic compounds (VOCs), and safe for homes and workspaces.
- A sustainable option for businesses and homeowners concerned about environmental impact.

DOOR POLISHING

Polishing doors is a crucial finishing process in woodworking that enhances the appearance, durability, and longevity of wooden doors. Whether for interior or exterior doors, polishing protects the wood from moisture, wear, and environmental factors while highlighting its natural beauty.

MELAMINE POLISH

- ◆ Provides a semi-glossy or matte finish.
- ◆ Protects against minor scratches and stains.
- ◆ Affordable and commonly used for interior doors.

In the field of door polishing polish crafts plays a significant role in achieving a luxurious, elegant, and high-quality finish that adds value to homes and commercial spaces.

POLYESTER POLISH

- ◆ High-gloss, mirror-like finish for a premium look.
- ◆ Extremely durable but requires professional application.
- ◆ Commonly used for high-end decorative doors.

DOOR POLISHING

FRENCH POLISH

- ◆ Traditional hand-applied technique using shellac.
- ◆ Enhances the natural beauty of wood grains.
- ◆ Best for classic, antique, or handcrafted doors.

PU (POLYURETHANE) POLISH

- ◆ Available in glossy, matte, and satin finishes.
- ◆ Provides excellent water and scratch resistance.
- ◆ Ideal for luxury wooden doors and exterior applications.

With the right polishing technique, wooden doors remain beautiful and strong for years.

LACQUER POLISH

- ◆ Quick-drying and available in various sheen levels.
- ◆ Provides moderate protection against wear and tear.
- ◆ Ideal for budget-friendly door polishing.

BENEFITS

ENHANCES AESTHETIC APPEAL

- Brings out the natural beauty of wood with a rich, elegant finish.
- Available in matte, satin, and high-gloss finishes to suit different interior styles.

INCREASES DURABILITY

- Protects against wear, moisture, and minor impacts, making doors last longer.
- Reduces the need for frequent repairs or replacements.

WATER AND STAIN RESISTANCE

- Seals the wood, preventing water absorption and staining.
- Ideal for doors exposed to humidity (bathrooms, kitchens, and outdoor areas).

UV AND HEAT PROTECTION

- Prevents fading or discoloration due to sunlight exposure.
- Heat-resistant finishes maintain their look even in high-temperature areas.

EASY MAINTENANCE

- Polished doors require minimal upkeep—just regular dusting and occasional wiping.
- Unlike raw or unfinished wood, polished surfaces resist dirt buildup and stains.

INCREASES PROPERTY VALUE

- Well-polished doors add a premium touch to homes and commercial spaces.
- A polished finish makes the doors look new and luxurious even after years.

ENVIRONMENTALLY FRIENDLY OPTIONS AVAILABLE

- Water-based and low-VOC polishes reduce harmful emissions.
- Sustainable options are available for eco-conscious consumers.

IDEAL APPLICATIONS:

- Modern furniture and cabinetry
- Decorative wood panels and partitions
- Kitchen cabinets and bathroom vanities
- High-end retail and office interiors
- Children's furniture and play areas

Elegance in every grain

MONOCOAT OIL

Monocoat Oil is a high-quality, eco-friendly wood finishing product designed to provide superior protection and enhancement to wooden surfaces. Unlike traditional wood finishes, Monocoat Oil bonds at a molecular level with the wood fibers, requiring only a single coat to achieve excellent durability and a natural matte look.

✓ OLD AND PROVEN TECHNOLOGY FOR APPLYING WOOD COATING

👉 DEAD MATT NATURAL OIL FINISH

👉 EXCELLENT FOR EXQUISITE WOOD FINISHES

BENEFITS

ENHANCED DURABILITY

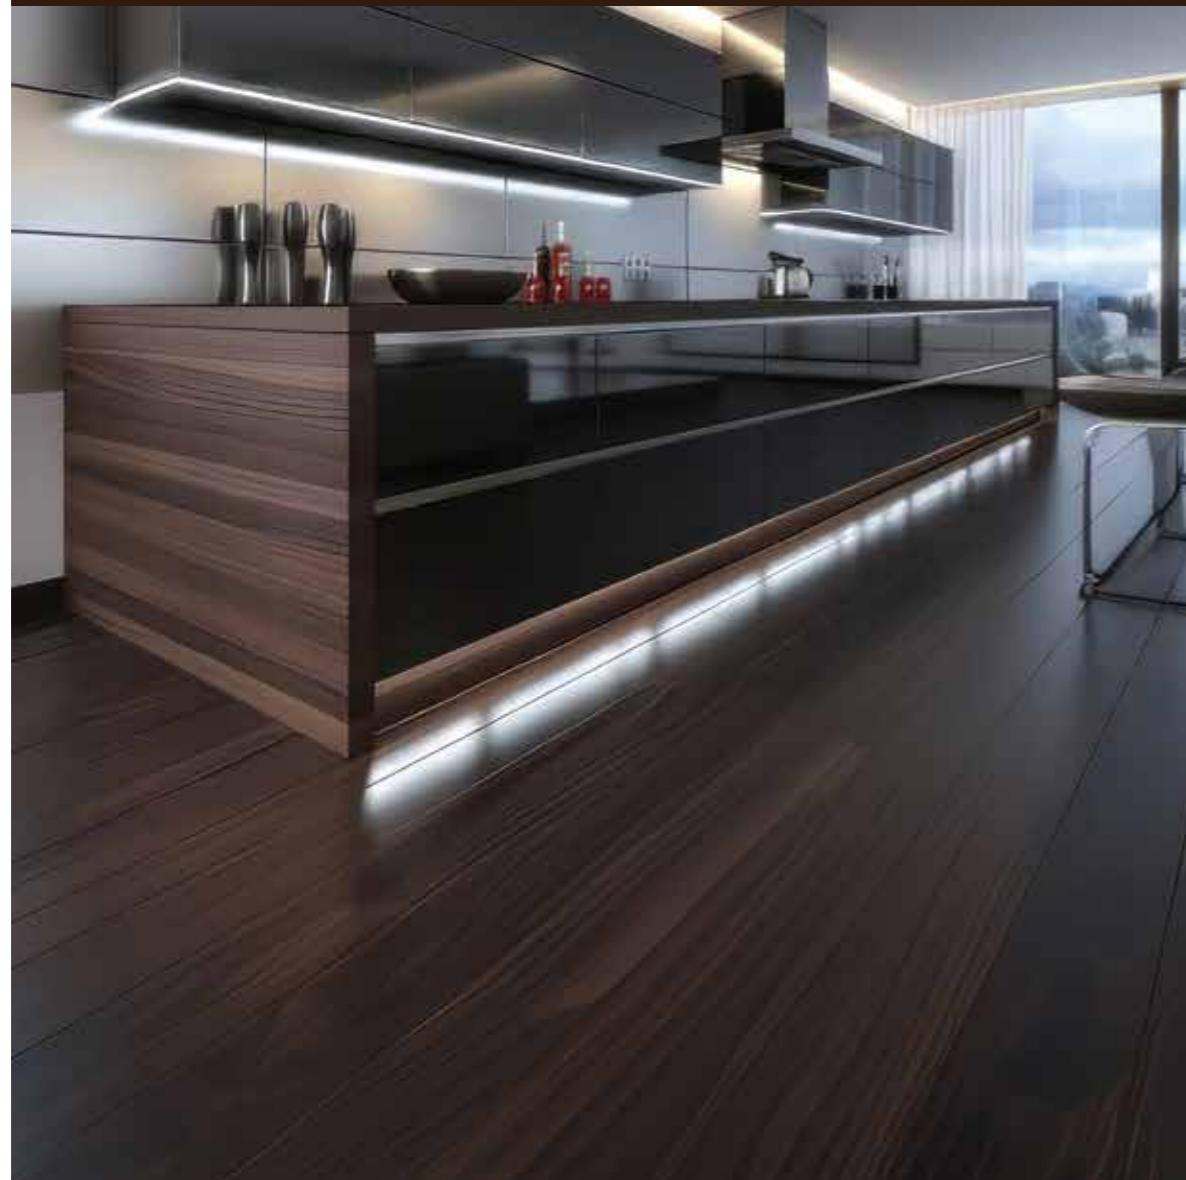

- PU clear coating creates a hard, protective layer that makes wood and veneer resistant to scratches, impacts, and daily wear and tear.
